Dear TEXAS reader!

Welcome to the newest catalogue of TEXAS garden products. This catalogue presents a wide range of products designed for use during spring, summer, autumn and winter. This means that no matter if you are an importer of Texas products, a dealer or if you are one of our many private or professional users of a Texas product, there is something to keep you busy all year round.

TEXAS - Danish design and innovation

Texas was founded in 1960 and is today 100% Danish owned. Our deep roots in production and designing machines for the garden people are shown in our many new product designs that are created continuously. Our product development division makes sure that we keep our status on the market as a proactive supplier that offer innovation and creative machine designs to our customers.

This can be seen on our newly designed gasoline brush cutter and trimmer design (shown in this catalogue) which are unique in ergonomics, design and user friendliness.

Another great example is our Futura 6003 multi machine that is a result of many years experience within manufacturing tillers combined with our goal to create the most user friendly and powerful machine at the best possible price.

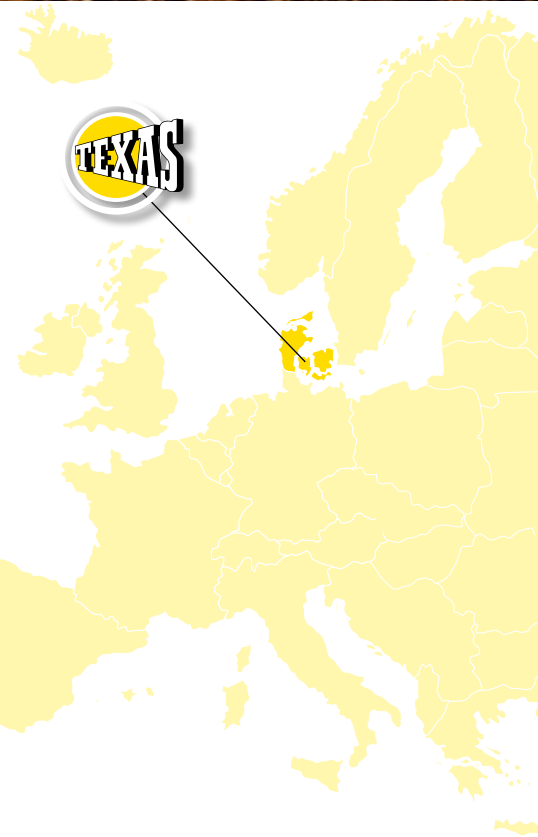

Only such products carry our distinctive Texas logo!

TEXAS - total flexibility and low costs through own assembly

Through our assembly line we handle big production series and manage coordination of productions and shipments within short time directly from factory - either in Texas branding or as personalised products in private brand.

TEXAS - we guarantee a professional service

When you work with Texas you are secured a professional after sales service that will guarantee you a safe investment in your machines. With more than 40.000 spare parts in stock and a full set of technical product documentation available on-line on www.texas.dk we ensure you the service you deserve. All our business partners work with Texas via our online service systems in a quick and smooth way where each order is processed from receipt till dispatch from our warehouse in minimum time.

TEXAS - we supply to you any where, at any time

The unique logistical system is a key factor to fast and cost efficient deliveries. We supply small shipments on a (day-to-day basis) from our central warehouse in Denmark. Most products are continuously in stock for the season which means that the speed of deliveries through our distribution system is very fast. Should you need deliveries in container loads directly from our factory in the Far East this will be carried out in a quick and flexible way - at low cost.

www.texas.dk

Find more information of products, specifications, user manuals, pictures on our informative web site www.texas.dk. Here you will also find video presentations of products like our Lilli and Futura tillers and our sweepers. Use our web site as part of your marketing or simply as your own personal guide to find the information about Texas that you need.

We hope that you will enjoy our catalogue!

Electric Mini Cultivators

With the electric Texas Mini Cultivators you get low weight, low noise and easy operation in one time. The cultivators are perfect in flowerbeds, between bushes and in general where the space is narrow and does not allow other machines to get in. You get a surprisingly big power output and consequently high work performance out of the machines.

Packed in nice 4 coloured boxes in a ready to use packaging.

5-in-1

Weeding out

Cultivating and airing

Fertilizing

Planting

Edge cutting along with lawns or flower beds

How it works?

The two knives are moving in opposite directions which gives a steady and calm working process. The result is incredible and a very effective way of a cultivating.

Texas ES 300

Motor: 300 watt / 230V
Working width: 15 cm
Working depth: 10 cm
Adjustable handle
Handle: divisible
Weight: 4,6 kg

Cat. no. 90063007

El Tex 750

Motor: 750 Watt / 230 V
Working width: 28 cm
Working depth: 20 cm
Blades: Bolted (easy to replace)
Weight: 9 kg.

Cat. no. 90062085

El Tex 1300

Motor: 1300 Watt / 230 V
Working width: 28 cm
Working depth: 20 cm
Support wheels
Weight: 15 kg.

Cat. no. 90062084

Texas Hobby tillers

The simplicity in design - yet strong in power and reliability makes the hobby tillers very popular for most garden tasks.

The adjustable handlebar ensures optimum working position and makes it less space demanding during storage and transport.

The Hobby 500 series are equipped with a unique foot operated support wheel system that allows for maximum user comfort.

High flexibility is achieved with a wide range of accessories which can be attached without the use of tools.

Hobby 370 TG

Engine: 3.7 HP Power Line
Transmission: 1 forward
Adjustable handle
Rotation speed: 130 rpm
Working width: 38 cm
Working depth: 20 cm
Weight: 28 kg.

Cat. no. 90260030100

Hobby 400 B

Engine: 4 HP B&S
Transmission: 1 forward
Adjustable handle
Rotation speed: 130 rpm
Working width: 38 cm
Working depth: 20 cm
Weight: 31 kg.

Cat. no. 90260020100

Also available with 3.5 HP B&S engine
on request

ACCESSORIES

Ridger

Cat. no. 91032500100
(Needs 10" wheels)

Scarifier 55 cm

Cat. no. 91033000100

Rake 60 cm

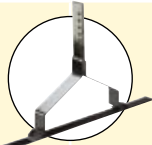

Cat. no. 91031000100
(Needs 10" wheels)

Wheels set 10"

Cat. no. 91032000100

Weeder 40 cm

Cat. no. 91031500100
(Needs 10" wheels)

Rain cover

Used as protection from
dust and rain.
For models 370/400/500

Cat. no. 40-11720

1 gear forward + 1 reverse

Hobby 500 BR

Engine: 5.5 HP B&S Quantum
Transmission: 1 gear forward + 1 reverse
Rotor speed: 130 rpm
Working width: 55 cm
Working depth: down to 33 cm
Adjustable handle
Incl. Support wheels and depth skid
Weight: 43 kg

Cat. no. 90265244100

Hobby 500 B

*As Hobby 500 BR but
without reverse gear*

Cat. no. 90265044100

Hobby 500 TG

*As Hobby 500 B but
with a 4.75 HP Power Line engine*

Cat. no. 90265048100

ACCESSORIES

Ridger

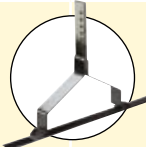

Cat. no. 91060500100
(Needs rear console and 12" wheels)

Rake 80 cm

Cat. no. 91062500100
(Needs rear console and 12" wheels)

Weeder 65 cm

(Needs rear console and 12" wheels)

Wheels set 12"

Cat. no. 91053000100

Wheel weight set 12" 10 kg each

Cat. no. 91097000100

Iron wheels set 12"

Cat. no. 91060600100

Rear console

Used when the accessory is
rear mounted.
(except ridger)

Cat. no. 91059000100

Smart wheel support

Unique and smart support wheel system.
Easy to operate with the foot. Quick conversion
to transport mode.

Texas Lilli tillers - the strong choice for the demanding user

The TEXAS Lilli tiller help you performe heavy garden tasks. The combination of low weight and a suitably large engine power makes the Lilli an effective and easy-to-handle tiller, which is simple to use yet strong in power. The knives are bolted and detachable for maximum flexibility.

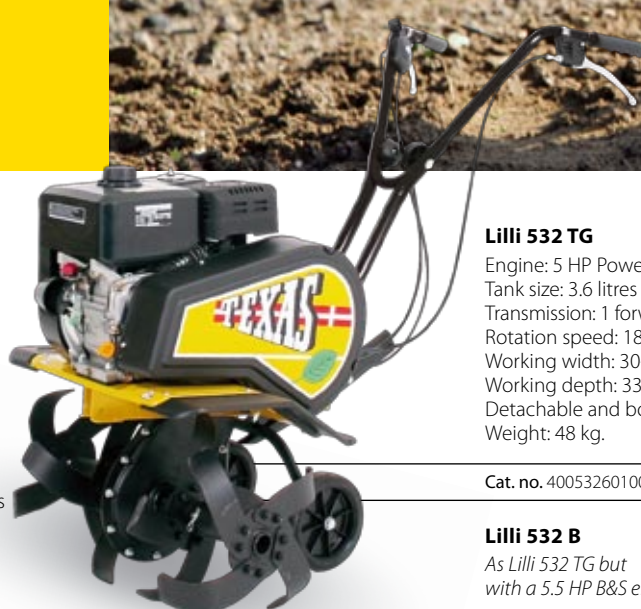

On all models you can attach a range of useful accessories: Ridger (with digging claws), rake for soil and pebbles, scarifier, weeder, hoe iron, snowblade and many more.

Lilli 530 TG

Engine: 5 HP Power Line
Tank size: 3.6 litres
Transmission: 1 forward
Rotation speed: 180 rpm
Working width: 30-85 cm
Working depth: 33 cm
Detachable and bolted blades
Weight: 48 kg.

Cat. no. 40053060100

Lilli 532 TG

Engine: 5 HP Power Line
Tank size: 3.6 litres
Transmission: 1 forward og 1 reverse
Rotation speed: 180 rpm
Working width: 30-85 cm
Working depth: 33 cm
Detachable and bolted blades
Weight: 48 kg.

Cat. no. 40053260100

Lilli 532 B

As Lilli 532 TG but
with a 5.5 HP B&S engine

Cat. no. 40053240100

ACCESSORIES

Weeder 60 cm

Cat. no. 91070000100
(Needs 12" wheels)

Ridger for Lilli

Cat. no. 91056000100
(Needs rear console and iron wheels)

Lawn aierator 66 cm

Cat. no. 91051500100
(Needs rear console)

Rake 80 cm

Cat. no. 91062500100
(Kræver hjul og bagkonsol)

Weeder 65 cm

Cat. no. 91061500100
(Needs rear console and 12" wheels)

Snow blade 75 cm including attachment

Cat. no. 92000160100
(Needs front attachment plate and 12" wheels)

Wheels set 12"

Cat. no. 91053000100

Wheel weights set 12" - 10 kg each

Cat. no. 91097000100

Side disc set

Cat. no. 91061000100

Iron wheel set 12"

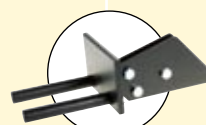

Cat. no. 91060600100

Rotor knife set 30cm extention width

Cat. no. 91050700100

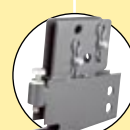

Front attachment plate

Cat. no. 91058000100

Rear console

Used when the accessory is
rear mounted. Not ridger.

Cat. no. 91057000100

Rain cover

Cat. no. 40-11720

1 gear forward + 1 reverse

Multi adjustable handle

- 1 Adjustable handle in all directions. Easy fastening of the handle provides maximum support during work.
- 2 Gas handle integrated gas handle.
- 3 Rotor knives are bolted and detachable which give the possibility of using the machine in narrow places of 30cm or in big areas with a working width of 85cm. Each knife can be dismantled and exchanged in a quick and easy way. Knives are made of heat treated steel.
- 4 Strong gear chain box with high durability. Transmission with one forward speed and one reverse speed.
- 5 Rear adapter fits a big range of accessories such as ridger, plough, rake and many more.
- 6 Double gas handle gives security against faulty use of the gears and minimises the risk of overloading the belt drive.

Lilli 572 B

Photo shown with extension rotors, to be ordered separately

Engine: 5.5 HP B&S
 Tank size: 3.6 litres
 Transmission: 1 forward og 1 reverse
 Rotation speed: 180 rpm
 Working width: 30-85 cm
 Working depth: 33 cm
 Multi adjustable handle
 Detachable and bolted blades
 Weight: 51 kg.

Cat. no. 40057240100

Lilli 572 TG

As Lilli 572 B but with a 5 HP Power Line engine

Cat. no. 40057260100

Futura 6003 A multi machine with muscles

Texas introduces an upgraded version of our well known Futura series. With a solid construction, this versatile machine can be used as a powerful tiller as well as a strong ploughing machine that does the job for the demanding user. Easy change of speeds (no belts needed). The universal adapter ensures a large range of accessories such as 16" wheels, heavy duty iron wheels, turning plough, trailer with seat etc.

The number of work purposes are endless if you are an owner of a Texas Futura machine. 3 engine options available.

Futura 6003 R

Engine: Robin Subaru 6 HP
Tank size: 3.6 litres
Transmission: 2 forward+1 reverse in intergrated gear box
Rotor rotation speed: 90 RPM
Standard 3 knife rotor set
Working widths: 1 knife set 36 cm /
2 knives set 64 cm / 3 knives set 83 cm
Working depth: 33 cm
Detachable and bolted knives
Universal rear mounting plate
Support wheels fully adjustable and foot operated
Basic weight without weight blocks: 62kg

Cat. no. 90145525100

Clutch handle

Ergonomic operation.

Support Wheel

Foot operated support wheels. Easy and quick usable system which transforms the machine from working mode till transport mode. The wheels have ball bearings.

See video on
www.texas.dk

- 1 Engine:** Choose between 3 engine options:
 - TG650 6HP Powerline engine at high quality and low costs.
 - B&S 6,5HP well known brand and classic engine.
 - Robin Subaru EX17 6HP professional engine constructed for 3000 hours of use.
- 2** Strong gear box with integrated gear shift (no belts are needed for this task) that ensures maximum strength even for heavy garden work.
- 3** Rear adapter fits most accessories available. Easy to use, no tools needed and made in solid metal.
- 4** Transport wheels with ball bearings and foot operated support bracket that allows for quick conversion to transport mode and vice versa. This system is unique for the Futura and makes it very easy to transport the machine despite the high weight of the machine.
- 5** Adjustable handle allows the correct working position for all tasks. Can be side adjusted when ploughing or cultivating to avoid walking directly on the trail.
- 6** Rotor knives made in hardened steel and bolted for easy exchange should a breakage occur. Standard working width of 85 cm can be reduced to 30 cm by disassembling the number of rotor sets.
- 7** Ergonomic clutch handle for easy engagement of gear box.

Futura 6003 TG

As Futura 6003 R
but with a 6 HP
Power Line TG650B engine

Cat. no. 90145570100

Futura 6003B B&S 6,5

As Futura 6003 R
but with a 6.5 HP
B&S Vanguard engine

Cat. no. 90145545100

Gear box

2 speed forward and 1 speed reverse. Adjust the speed for any purpose you need and depending on the accessory you work with. No risk of belt overloading and no need of exchanging belts when speed is changed.

Ajustable handle

Multi adjustable handle can be moved in all directions. A solid metal lock secures the handle in the desired position even during very demanding work.

Texas Pro Trac 2-wheeled tractor - versatile machines with incredible power

The Texas Pro Trac series are universal two-wheeled tractors that cover the needs of a professional user.

The models range from Pro Trac 500 up to Pro Trac 900 available with both gasoline and diesel engines.

Handling is simple and straight forward despite the power and size of the machines.

Large amount of accessories available. The Pro Trac can be converted to a sweeper simply by removing the rear tiller and then attach the sweeper unit to the quick clutch without the use of tools.

Pro Trac 500R

Engine: 5 HP - gasoline Power Line TG 550

Starter: Recoil

Transmission

(rearmounted accessories): 1 forward, 1 reverse

(frontmounted accessories): 1 forward, 1 reverse

Wheel size: 4.00x8

Weight: 51 kg.

Cat. no. 42020865

Pro Trac 555R

Engine: 5 HP - gasoline Power Line TG 550

Starter: Recoil

Transmission

(rearmounted accessories): 3 forward, 2 reverse

(frontmounted accessories): 2 forward, 2 reverse

Wheel size: 3.50x8

Quick clutch

Weight: 65 kg.

Cat. no. 55520870

Pro Trac 700D

Engine: 6 HP - diesel Power Line TD 600

Starter: Recoil

Transmission

(rearmounted accessories): 3 forward, 2 reverse

(frontmounted accessories): 2 forward, 2 reverse

Wheel size: 5.00x10

Quick clutch

Weight: 115 kg.

Cat. no. 70020960

- 1 **Engine:** Strong and reliable gasoline or diesel engines available from 5HP up to 9HP with electric starter.
- 2 **Gear box:** The gear box is of very high quality and guarantee you a reliable working platform. The gear box components are of high quality materials which are used in the assembly process. The shift between the forward and reverse gear is easy and quickly made.
- 3 **Handle bar:** Handle bar with anti vibration increases the user comfort during long working days. Further more the handle can be turned 180 degrees depending on which accessories that are used. A plastic cover on top of the handle bar protects all wires and other sensitive parts and gives a nice design of the machine.
- 4 **Gear:** Differential gear is available on the 900 model which means that the machine can be used even on slippery surfaces with better traction. At the same time the wheels can turn in opposite direction which makes it easier to change direction of the machine when working.
- 5 **Quick clutch:** Exchange accessories easily and without the use of tools. Fits all accessories for Pro Trac and Pro Sweep series.

Pro Trac 900DE

Engine: 9 HP - diesel Power Line TD 900E

Electric starter

Transmission:

(rearmounted accessories): 4 forward, 3 reverse

(frontmounted accessories): 3 forward, 3 reverse

Wheel size: 5.00x10

Quick clutch

Weight: 125 kg.

**New high
wheeler design**

Texas lawn mowers

Texas presents an interesting range of gasoline lawn mowers. The lawn mowers are fitted with a 4-stroke 4,75 HP Power Line engine. There are two lines of lawn mowers in the range – The range is available with either 46 cm or 50 cm cutting width, which give the users possibility to find the lawn mower exact for their demand.

On the combi models you have the possibility to use the lawn mower with collection bag, rear discharge or mulching, which gives flexibility for the user. Finally the range is based on a new Texas design which differentiates the mowers from similar models, and this combined with a competitive price gives a very interesting range of lawn mowers.

Weight: 37.5 kg

Cat. no. 90066027

COMBI 3-IN-1

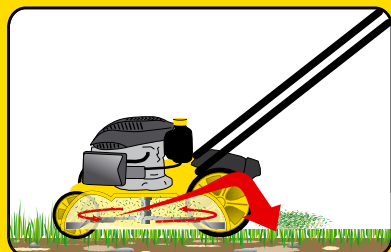

COMBI 3-IN-1

Collection bag

Ideal for most types of gardens, where the grass is cut regularly. The grass is collected into the big 60 l. collection bag and leaves the lawn in a beautiful condition – with no trace of grass pieces.

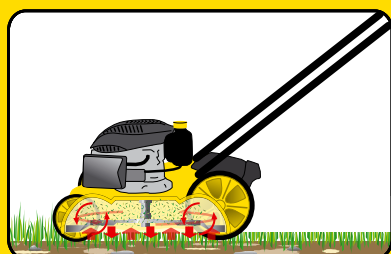

The collection bag can also be used in the autumn to vacuum the lawn for leaves and small branches.

Rear discharge

Suitable for places, where the grass is not so often and where it is therefore long.

A collection bag would quickly be full and should be emptied many times. With a rear discharged lawn mower, you will get the work done faster and easier.

Mulching

Mulching is easy and gives a nice result. With the mulching plug fitted into the lawn mower, the grass is cut into very small pieces, which will disappear down into the lawn – and works as a natural fertilizer. Mulching however, requires a regular lawn mowing, 1-2 times per week, where the grass is dry, in order to get the best result.

Garden SP 50 TR

Engine: Power Line TG475 gasoline 4.75HP

Self propelled

Cutting width: 50 cm

Collection box: 50 ltr

Deck: Steel

Texas Brush cutters and trimmers

Texas has developed a product range of cost effective and strong brush cutters and trimmers in a reliable quality. The range goes from 30 cc up to 43cc and engines are 2-stroke or 4-stroke with high power rate. The brush cutters are developed in a unique Danish design, which gives a different and very attractive line of brush cutters.. The brush cutters have low vibration and offers high level of ergonomic with comfortable carrying harness and ergonomic adjustable handles.

A range of nylon trimmer lines and cutting blades is available. Further more a general range of accessories is available in our Tex Part packaging.

Advantages with a Lithium battery

- Always ready for use
- almost no self discharge
- up to 50 percent lower weight and better effect than the traditional battery.
- It makes the machine lighter and more manageable.
- Charger 80 percent at half the normal charging time – it gives only short breaks by working.
- The battery does not have to be discharged before new charging
- Lithium batteries are environmental friendly

2-in-1

Lawn edger

ET 1000

Motor: 900 watt / 230 volt
Cutting width: 38 cm
Handle: 2-handle w. softgrip
Cutting line diameter: 2 mm
Weight: 5 kg

Cat. no. ET1000

Texas trimmer ET 18 Li

Battery: 18 volt Lithium 1.3 Ah
Capacity: 25 - 35 min
Charging time: 3-5 hours
Cutting width: 23 cm
Weight: 2.5 kg

Cat. no. 90063057

Texas Trimmer GTX300

Engine: 2-stroke Euro 2 / 30cc
Revolutions: 7500 rpm
Recoil start
Carburettor: Membran
Trimmer Head: tap 'n go 2.0 mm
Cutting width: 40 cm
D-handle
Curved shaft
Weight: 5.1 kg

Cat. no. 90062035

See page 30

Texas Brushcutter BC335/4

Engine: 4-stroke / 33.5cc
 Tank capacity: 0.65 ltr
 Cutting width: 42 cm w. line
 Trimmerhead: Tap'n go 2.4mm
 3-tooth cutting blade
 Cutting width: 25 cm w. blade
 V-handle
 Straight Shaft
 Incl. pro harness
 Weight: 6.9kg

Cat. no. 90062038

4-Stroke

Texas Brushcutter BCX300

Engine: 2-stroke Euro 2 / 30cc
 Recoil start
 Carburettor: Membran
 Trimmer head: tap'n go 2.4 mm
 Cutting width: 40 cm w. line
 4-tooth cutting blade
 Cutting width: 23 cm w. blade
 V-handle
 Straight shaft
 Incl. pro harness
 Weight: 6 kg

Cat. no. 90062036

Texas Brushcutter BCX320

As BCX300 but with 32 cc engine
 Cat. no. 90062037

Texas Brushcutter CG430B

Engine: 2-stroke / 43 cc
 Revolutions: 6500 rpm
 Recoil start
 Carburettor: Membran
 Trimmer head: tap'n go 2.4 mm
 Cutting width: 40 cm w. line
 3-tooth cutting blade
 Cutting width: 25 cm w. blade
 Straight shaft
 Incl. Luxery harness
 Weight: 8.2 kg

Cat. no. CG430B

Luxery harness

Double harness
 with comfortable shoulder
 pads and hip pad
 which gives a good balance
 of weight and minimize strain in
 the arms during use.

**Professional
harness**

Professional double harness
 which is constructed with a solid
 support plate. The support plate
 and the comfortable pads give
 an optimal balance of weight
 and spare the arms during use.
 The harness has quick adjusting
 straps, to make it fit optimal.

Texas chain saws and hedge trimmers

Everyone with garden and hedge need a hedge trimmer, and why not choose a hedge trimmer which has all the qualities which will help you to do the cutting. Texas presents a range of hedge trimmers and the user can choose models with either an electric or gasoline engine, or a battery-powered model. The Electric hedge trimmers have the advantages that they are easy to maintain, economic in operation and they weigh less than the gasoline models. With Texas gasoline hedge trimmers you are free and flexible without any cables.

Hedge trimmer SH 18 Li

Battery: 18 Volt Lithium 1.3Ah
Capacity: 35-45 min
Sword length: 52 cm
Cutting width: 14 mm
Handle: turnable 180 degrees
Front handle: 3 positions
Aluminium bar
Weight: 2,5 kg

Cat. no. 90063058

Hedge Trimmer SH 650

Engine: 650 Watt / 230 volt
Bar length: 610 mm
Cutting width: 24 mm
Handle: turnable 180°
Aluminum bar
Weight: 4,2 kg

Cat. no. 90063059

Turnable
handle

Long
cutting bar

Hedge trimmer SHT 650

Engine: 650 Watt / 230 Volt
Bar Length: 610 mm
Cutting width: 20 mm
Handle: turnable 180°
Aluminium bar
Weight: 4,1 kg

Cat. no. SHT650

Turnable
handle

Hedge trimmer HT 260

Engine: 2-stroke / 26 cc
Bar Length: 600 mm
Cutting width: 27 mm
Weight: 5,4 kg

Cat. no. 90062029

Turnable
handle

EK 2000-40

Engine: 2000 Watt / 230 Volt
Bar Length: 40 cm
Chain brake
Toolless adjustment of chain
Automatic lubrication
Weight: 4,6 kg

Cat. no. 90063002

TS 450-18

Engine: 2-stroke 45 cc / 1.1 kW
Ignition system: Electronic ignition
Carburator: walbro
Adjustment of chain: Demand tools
Chain brake: Yes
Lubrication of chain: Automatic
Length of saw bar: 45 cm
Weight: 6.5 kg

Texas Cleaning machines

Texas presents a range of cleaning machines, which are suitable for different cleaning jobs in the garden. In this range you find products with an electric motor, gasoline engine, or battery-powered products, which give the users possibility to find the product exactly for their needs. Ergonomic and user-friendly features have high priority on these products, and it gives the user good experience by working in the garden. This range makes sure that you can find a cleaning machine for each of the 4 seasons!

Leafblower BV2400

Motor: 2400 Watt / 230 Volt
Max blowing speed: 270 km/h
Suction capacity: 14 m³/min
Collection bag: 35 litres (Reduces volume up to 10 times)
Carrying strap
Softgrip
Weight 4,5 kg

Cat. no. BV2400

Leafblower GVB 31

Engine: 2-stroke 31 cc Euro 2
Max blowing speed: 250 km/h
Suction capacity: 12 m³/min
Collection bag: 35 litres
Weight: 6,3 kg

Cat. no. 90063006

Texas Power Cart 120

Whether you work in the stable or at the riding school, you launch into greater garden or building projects. Most of us know how it feels to have signs of pain in the back during our work with the wheelbarrow. But why struggle when the job can be done without? The 24 Volt battery ensures a working speed that goes up to 4.2 km/h. The combination of the dump body and a working height on 94 cm this wheelbarrow is an efficient and an ergonomically correct tool for a professional as well as a private consumer.

Texas Power Cart 120

Motor: 350 Watt 24V/10Ah
Capacity: 120 kg
Speed: 0- 4.2 km/t
working time: 2 hours
Weight: 75 kg Incl battery
width: 80 cm.

Cat. no. 90063062

Battery

Included is an extra 24V/10 AH battery with a build in handle to ensure that the work can be done without interruptions. Approx. 2 hours working time per charge.

Sealed up engine

The engine is enclosed in the front wheel to protect the engine against impact and weather.

Ingenious tip

The bed of the wheel barrow which can load up to 120 kg can easily be tipped by using the single handle.

Transportable leafblower ELS 2500

Motor: 2500 Watt / 230 Volt
Collection bag: 45 litres
Max blowing speed: 270 km/h
Suction capacity: 20m³/min
Weight: 11 kg

Cat. no. 90063005

High pressure cleaner HP160

Motor: 2200 Watt / 230 Volt
Max pressure: 160 bar
Working pressure: 100 bar
Capacity: 6.5 l/min
Auto start / stop function
Incl. multispeed lance,
turbo lance, Soap container
Foldable handle
Weight: 9 kg.

Cat. no. HP160

Centrifuge spreader CS2500

Capacity: 25 ltr
Max spreading width: 2 m
Adjustable dosing
Big pneumatic wheels
Weight: 10 kg.

Cat. no. 90052014

Snow Buster 450

Engine: 4,0 HP Power Line
Working width: 52 cm
Working height: 26 cm
Throwing distance: 2-8 meter
Weight: 38 kg

Cat. no. 90062044

Snow Buster 560

Engine: 5,5 HP Power Line
Transmission: 3 forward & 1 reverse
Working width: 56 cm
Working height: 51 cm
Throwing distance: 10-15 meter
Weight: 72 kg

Cat. no. 90062045

Texas Sweepers – all year cleaning machines

Texas Sweepers – unique designed cleaning machines for use at both summer and winter time.

The Texas sweeper line consists of the following models: Mini Sweep – Handy Sweep – Pro Sweep. All machines are highly ergonomically designed and offer simplicity in use with high effectiveness in the work carried out.

Use the machines for cleaning of leaves, sand and dirt around houses, blocks, parking spaces etc. Due to the strong construction of the brushes the Handy Sweep and Pro Sweep series are also ideal for snow cleaning.

Handy Sweep 600B

Engine: 5.5 HP 4-stroke B&S Powerbuilt
Transmission: 1 forward + 1 reverse
Speed: 3 km/h
Working width: 60 cm
Brush diameter: 350 mm
3 adjustable sweeper positions
Brush speed: 500 rpm
Weight: 60 kg

Cat. no. 90227540100

Handy Sweep 600TG

As 600B but with a 5 HP 4-stroke
Power Line TG500 engine

The Texas history...

The year is 1960 "The Texas Year"

The company Texas is founded in 1960 in Odense, Denmark.

This is where the beginning of a business success takes place - but how did it all start up?

Here follows some history.

Andreas Petersen, a fresh and youthful son of a farmer from the Southern part of Denmark, had in the 1950's the wish to see something of the big wide world. He wished to go to Texas in the USA.

It was particularly the forestry, Andreas Petersen was interested in, and in the USA he got acquainted with a tool which within a couple of years should revolutionize the forestry in Denmark: The chain saw.

Sales possibilities in Denmark

After getting back to Denmark Andreas Petersen was convinced about the sales possibilities in the product for the Danish forests and forest workers. He quickly discovered an enormous interest in the products in

the Danish forests and the success was instant.

Later came a rising interest for having the digging work in the kitchen garden mechanised. As a result Andreas Petersen started in 1964 import the English manufactured tiller under the name Auto Culto.

Mr. "Texas"

Andreas Petersen realised his dream about becoming independent and getting his own company.

What was more natural than to name the company "TEXAS"? Not only because this was the nickname Andreas Petersen received when working in the forests but also because everything from "over there" was very popular in this particular period.

Selling tillers

Andreas Petersen now participated in several fairs, which gave him the option to show the product and the interest was enormous.

Consequently he started developing his own tiller for the Danish market and in January 1966 Andreas Petersen's first Danish manufactured tiller was a reality.

Development of the company Texas

In the following years the company experienced an enormous growth. Stiga, the Swedish lawn mower manufacturer, caught interest in Andreas Petersen and his "garden machine".

This was the beginning of a true export adventure. During the following 10 years 60% of the production of the company was exported to more than 25 countries. Later on also many other partners in Europe helped founding the basis of Texas as an international company.

Through the years Texas has succeeded in maintaining its market position and stay as one of the top suppliers and manufacturers within total solutions for the Garden and outdoor industry.

Not alone due to the strong products, and wide product range, large range of accessories and a high quality after sales service.

But also especially due to constant product development in close dialogue with the customers and users.
